

We will accept donated materials. We prefer to receive material in very good condition provided they adhere to our current policy for collection development. New bestsellers are especially useful.

Items we accept:

- Gently used books
- Working DVDs

Items we DO NOT accept:

- Textbooks or encyclopedias
- Badly damaged books
- Moldy or dusty books
- Books that smell of smoke or other musty scents
- VHS, cassette tapes, and CDs
- Outdated materials

Donated materials are not shelved, housed, or cataloged separately. We also reserve the right to put them in our book sale or refer them to other book donation programs.

Upon request the library will be happy to provide written acknowledgement of your gift, but the staff does not appraise or provide valuations of gifts for tax deduction purposes. The establishment of the gifts value is the responsibility of the donor.
